

Clubs are programming robots!

Interested? Hear about the planned collaboration between the robotics team and the ACM club.

A team member will present sample code and talk about the different aspects of computer science involved—computer vision, data manipulation, interface design, and more. All skill levels welcome!

Speaker: Bill Morris, CCNY Robotics Team

Thursday, September 7th, 2006

NAC 1/211

the CCNY chapter of ACM: the Association for Computing Machinery
